Wireless Telecommunications Bureau
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

To the Wireless Telecommunications Bureau:

On behalf of ALLTEL Corporation, and its subsidiaries and affiliates providing wireless services, please find attached the Second 911 Transition Reports required under the Commission's Fifth Report and Order in CC Docket No. 92-105. The reports have been filed in the form of the suggested template on a state by state basis and each contains a spreadsheet attachment listing the various counties in which ALLTEL provides wireless service, the public safety entity to which 911 calls are routed in a particular county, and the name of the ALLTEL licensee. ALLTEL has, on a company-wide basis, reconfirmed the routing for 911 calls in each of its wireless markets, and the spreadsheets contain routing information both for the counties listed in Appendix D to the Fifth Report and Order that receive ALLTEL service, as well as those that ALLTEL discovered during the course of its review were either not fully 911 capable, or not providing enhanced 911 service. ALLTEL had previously requested an extension of the original September 26, 2002 filing deadline.

ALLTEL regrets the need to provide these reports to the Bureau by facsimile, but technical problems precluded it from making the submission electronically. Should the Commission desire an electronic or hard copy submission, ALLTEL would be pleased to attempt to provide one. Please address any questions or concerns respecting the attached reports to the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenn S. Rabin", written over a horizontal line.

Glenn S. Rabin
Vice President
Federal Communications Counsel
